

❄️ **FREEDOM** ❄️ **ADVENTURE** ❄️ **INDEPENDENCE** ❄️ **EQUALITY** ❄️

Do you ever find yourself craving any of the above, but haven't yet found the outlet to fulfil your passion?

If you enjoy experience new things, love adventure, and want to learn to ski, then Disability Snowsport UK might be just what you're looking for!

Now based in SNO!zone, Xscape Milton Keynes, as well as all other indoor ski slopes across the UK, DSUK is able to provide exciting and life-enhancing activities for individuals or groups who require specialist instruction and support.

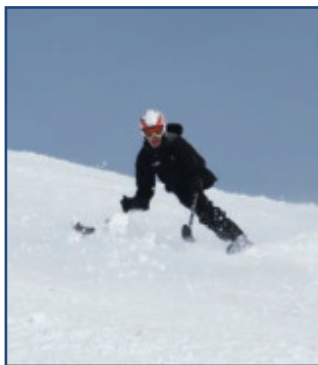

We believe that skiers and snowboarders with a disability should be able to ski alongside the able-bodied as equals, at all ski facilities and resorts.

We strive to promote equality and opportunity for people with disabilities to take part in snowsports, and to help improve their enjoyment and standard of performance at the level of their choice.

Through snowsports, we believe that we are able to offer increased opportunities, mobility, freedom, social interaction, independence and skill of people with disabilities, by providing a caring, therapeutic experience with the added thrill of adventure.

We administer lessons on both a private and group basis. If you have not skied before, do not worry! We welcome skiers with little or no experience, as well as those who have skied before, from the ages of 4 years old and up.

Our skiers' disabilities range from neuromuscular diseases such as spina bifida and cerebral palsy, spinal cord injuries, traumatic brain injuries, diabetes, visual and hearing impairments, amputations and limb deficiencies, cerebrovascular accidents, as well as a wide range of development and cognitive disabilities such as learning and communication difficulties, emotional and behavioural difficulties, down's syndrome and autism.

As you can see there is not anyone who is not welcome. So please, if you are looking for a new challenge or skill, or know someone that would benefit from the experience then get in touch with Charlie using the details below:
